

## RESULT OF THE SCHOOL ELECTION

In All But the First the Outcome is Well Assured.

### CONTEST THERE IS LIVELY.

How the Vote Stood This Afternoon—Both Parties Were Confident—Looks Like Cummings.

Aside from the contest in the First, the school election today was quiet and on the whole uninteresting. So far as learned there was no opposition in any of the other precincts, voters generally being content to let well enough alone and cast their ballots for the regular nominees. This, therefore, insures the election of M. J. Cummings from the Second, W. J. Newman from the Third, B. S. Young from the Fourth and H. P. Henderson from the Fifth. There were rumors of underhanded opposition to Messrs. Young and Henderson, but up to the time of going to press these rumors were wholly unconfirmed.

#### THE FIGHT IN THE FIRST.

The fight in the First, as is well known, is between Prof. Byron Cummings, the regular non-partisan candidate, and Daniel Eyer, the "Independent" candidate. In this precinct there are four polling places and at noon today something like 700 voters had been polled. Cummings led by a good majority. This was conceded by the Eyer men. At No. 2 the vote was said to be 230 with the big end in favor of Mr. Cummings. The Eyer men, however, were disputing the opposition. At poll No. 3 in the city and county building, which includes districts Nos. 4, 5, 6, 7, and 8, there were two sets of judges, one handling the vote in districts 4 and 5, and the other in districts 6, 7, and 8. In the first two districts there were 170 votes cast up to 1 o'clock, a majority of which were for Cummings. It is estimated that there will be 400 votes cast in those districts. In districts 6, 7, and 8, there were 140 votes cast, 95 being for Eyer and 45 for Cummings. It is estimated that there will be 600 votes cast in those districts, of which Eyer will receive a majority. At poll No. 4, the odds seemed to favor Mr. Eyer.

#### BOTH PARTIES CONFIDENT.

Up to a late hour this afternoon both parties were confident of victory. Their ranks were well organized and considerable hustling was done, this being particularly the case during the morning. It was said by the Cummings men that the "Independents" had run out of voters in certain districts and they expected to win they would have to reinforce their ranks materially in the polls closed. To all appearances Prof. Cummings has the better of the argument and it would not be surprising to find him elected by a good majority once the votes are submitted to official scrutiny.

#### ARTICLE ON SALT LAKE.

Prof. Ely of Wisconsin Will Write One for Harper's Magazine.

The board of governors of the Commercial club chose the following members to membership last night: D. S. Taggart, C. W. Whitty, J. F. Young of this city; A. B. Lewis of Frisco, E. R. Pool of Denver and U. V. Whitte of Ogden.

Secy. Harris has been in correspondence with R. T. Ely, professor of economics and political science in the University of Wisconsin. The professor is furnishing Harper's Magazine with a series of articles relative to the economic development of different sections of the United States, and he has now in preparation an elaborate article covering Utah and Salt Lake City, to appear in one of the spring numbers. Secy. Harris for the Commercial club is extending all the aid possible in the way of material and illustrations. An article on the city of Cleveland which the professor wrote for Harper's some time ago, proved of the greatest benefit to that city and it is believed that the article on his city will result in great advantage to it. Secy. Harris is also furnishing material to Secy. and Treas. John Brant of the Old Time Telegraphers and Historical Association for his coming pamphlet descriptive of the meeting last summer of the association in this city. The pamphlet will deal largely with the attractions and resources of the city and state.

There will be a special meeting this afternoon of the executive committee of the general water committee of the Commercial club to complete the drafting of the report to the club on the investigations of the sub-committees. The meeting will be private and not open to reporters, as the completed report is liable to change in the general committee, and it is desired that the finally revised and accepted report be the one to be given to the press. There will be a special meeting of the club Monday night next to talk over informally matters of public interest.

#### SKATES FOR SKATERS.

Dealers Getting Ready for Contemplated Demand for Such.

Hardware and sporting goods dealers are making an attractive display of skates in their windows, now that cold weather has set in. Prices are on the upward tendency, like many other classes of goods, because of the scarcity in raw material, but the cheapest grades of skates can be bought for from 40 cents to \$1.25 per pair. The highest priced article is the nickel plate club skate, which sells at \$4 to \$5 per pair, and makes a swell appearance. Club skates were first invented back in the sixties, in New York, and the shape then was very much what it is now, but the higher priced skate was either plated and cost \$22 per pair.

#### TRUTH INCORPORATED.

Local Weekly Takes on a Legal Existence—Capital \$4,000.

The Truth Publishing company, of this city, today filed its articles of incorporation in the county clerk's office. The capital stock is \$4,000 divided into shares of the par value of \$1 each. John W. Hughes is president and treasurer.

## CHANGE OF CLIMATE.

Not Necessary in Order to Cure Catarrh.

The popular idea that the only cure for chronic catarrh is a change of climate, is a mistake because catarrh is found in all climates in all sections of the country, and even if a change of climate should benefit for a time the catarrh will certainly return.

Catarrh may be readily cured in any climate, but the only way to do it is to destroy or remove from the system the germs which cause all the mischief.

The treatment by inhalers, sprays, powders and washes has been proven almost useless in making a permanent cure, as they do not reach the seat of disease, which is in the blood and can be reached only by an internal remedy which acts through the stomach upon the blood and system generally.

A new discovery which is meeting with remarkable success in curing catarrh of the head, throat and bronchial tubes and also catarrh of the stomach, is sold by Druggists under the name of Stuart's Catarrh Tablets.

These tablets which are pleasant and harmless to take owe their efficiency to the active medicinal principles of Blood Root, Red Gum and a new specific called Gualacol, which together with valuable antiseptics are combined in convenient, palatable tablet form, and as valuable for children as for adults.

Mr. A. R. Fernback of Columbus, Ohio, says: "I suffered so many winters from Catarrh that I took it as a matter of course, and that nothing would cure it except a change of climate, which my business affairs would not permit me to take."

My nostrils were almost always clogged up, I had to breathe through the mouth causing an inflamed, irritated throat. The thought of eating breakfast often nauseated me and the catarrh gradually getting into my stomach took away my appetite and digestion.

My druggist advised me to try a fifty-cent box of Stuart's Catarrh Tablets, because he said he had so many customers who had been cured of Catarrh by the use of these tablets, that he felt he could honestly recommend them. I took his advice and used several boxes with results that surprised and delighted me.

I always kept a box of Stuart's Catarrh Tablets in the house and the whole family use them freely on the first appearance of a cough or cold in the head.

With our children we think there is nothing so safe and reliable as Stuart's Catarrh Tablets to ward off colds and colds and with older people I have known of cases where the hearing had been seriously impaired by chronic catarrh cured entirely by this new remedy.

C. M. Jackson, vice president, and Nellie B. Hughes, secretary, of the Commercial club, today announced that the final performance of "Pennsylvania" will be given at the Grand tonight. Tomorrow evening the detective play of "Caught in the Web" will be seen.

#### WIFE GETS A DIVORCE.

Judge Hall today granted Elneta V. Bell a divorce from her husband, John B. Bell, on the grounds of desertion and non-support. The parties were married in this city on August 2, 1901, and on March 1 of this year the defendant deserted his wife and has ever since failed to support her. Plaintiff's maiden name, Elneta V. Bell, is restored to her, and she is also allowed \$50 as attorney's fees.

#### TO CURE A COLD IN ONE DAY.

Take Laxative Brown-Cut Tablets. All druggists return the money if it fails to cure. E. W. Groves' signature is on each box. 25c.

#### DECREE OF FORECLOSURE.

A decree of foreclosure of mortgage was rendered today by Judge Hall in the case of L. P. Madsen vs. Mary C. Carlson in person and as administratrix of the estate of A. E. Carlson, deceased. The amount of the judgment is \$486.55 and the property foreclosed on is part of lot 8, block 13, 10-acre plat A, big field survey.

#### CHANGES HIS PLEA.

John Williams Concludes that He is Guilty of Robbery.

John Williams, colored, appeared before Judge Johnson this afternoon and withdrew his plea of not guilty, heretofore entered, to the charge of robbery, and entered a plea of guilty to the charge of grand larceny. He also waived time of sentence and, upon recommendation of Dist. Atty. Eichnor, was sentenced by the court to one year in the state prison. On Aug. 14, 1922, Williams robbed Thomas L. Doe of \$5.75 in cash, a lodge pin and another souvenir pin. Several days ago Williams, in company with two other prisoners, was brought before Judge Morse for the purpose of changing his plea and receiving sentence, but all three of them backed down and were taken back to the jail.

#### DR. PARRY COMING.

Noted Welsh Musician Will Circumnavigate the Globe.

Professor William Ap Madeo of Chicago, writes to County Clerk James stating that Dr. Joseph Parry, the noted Welsh musician, who will be remembered as the chief adjudicator at the national eisteddfod held in this city in the fall of 1898, will start with a company of eminent Welsh musicians on a tour of the world next June. Dr. Parry and company will return via Philippine Islands, Hawaii, San Francisco and Salt Lake. They expect to reach Chicago in December, and will probably be here in October.

#### AFTERNOON STOCKS.

The Market Dampish with a General Drooping Tendency.

There is not much to be said regarding the dealings on the Mining stock exchange this afternoon, or was not up to 2:30, when this report closed. At that time the dealings, though somewhat heavy in the favorites, were not so buoyant, and the animation of this morning was not visible. The record of sales, given below, discloses the fact that the downward trend was general.

Daily-Judge, 100 at 240; 100 at 235-8. Daily-West, 75 at 27.50; 50 at 27.00; 125 at 27.00; 25 at 26.50; 150 at 26.50. Ingot, 1,500 at 12; 2,500 at 12.50. Lower Mammoth, 100 at 245; 50 at 240; 200 at 240; 300 at 240; 400 at 240; 500 at 240; 600 at 240; 700 at 240; 800 at 240; 900 at 240; 1,000 at 240. Star Con., 1,500 at 145.

## WILL GO TO THE PACIFIC COAST.

Geo. W. Heintz Gets Good Position With North Shore.

### WILL LEAVE NEXT WEEK.

Position is a Responsible One and Road Does an Immense Suburban Traffic—Heintz Good Record.

It was rumored this afternoon that George W. Heintz, formerly general passenger agent of the Rio Grande Western in this city had been appointed general freight and passenger agent of the North Shore railroad, a road running north out of San Francisco for a distance of 115 miles. It was too late for the "News" to verify the accuracy of the report from its San Francisco correspondent, but there is no question as to its truth. It is understood that Mr. Heintz will leave here some time next week to assume the duties of his new responsibilities, which all things considered, will be heavy. Mr. Heintz is one of the best and most popular railroad men in this section and his friends will be pleased to learn of his good luck.

#### HAIRY POOL'S CASE.

Alleged Burglar Still on Trial Before Judge Johnson.

The case of the State of Utah vs. Hairy Pool was still on trial today before Judge Johnson in the criminal division of the district court. Pool, on the night of March 20, 1902, coolly walked into the home of Dr. C. W. Higgins, in this city, and at the point of a revolver, robbed William McEasters, who was calling upon Miss Higgins at the time, of a gold watch valued at \$20 and \$10 in cash. The testimony in the case was concluded at 2 o'clock this afternoon and the arguments were commenced. Atty. J. M. Hamilton represents the defendant and Dist. Atty. Eichnor the state.

#### WALKER BUYS STOCK.

Local Business Man Now a Director in Home Telephone Company.

The new Home Telephone company made something of a point this morning, when M. H. Walker bought quite a block of stock and was placed on the board of directors. The canvassers will begin active work next Saturday morning, and the engineers are preparing plans and specifications so that work may begin without delay. Headquarters for the present will be in the Commercial block offices of Elmer B. Jones and the final location of the same will be determined by the character of the apparatus to be used in the central station, as the choice has not yet been definitely decided on as to automatic or central energy in switchboard construction. In two weeks Messrs. Patton and Jones will go east to decide on the selection of material and methods of operation.

## ALMA HARVEY FOUND GUILTY.

Another graduate from the messenger service was this morning found guilty by a jury of committing a crime. When the mother of Alma Harvey, a boy 18 years of age, heard the verdict of the jury in the Federal court she threw up her arms and exclaimed, "My boy, my poor boy," burst into a fit of hysterical sobbing. Long after she had been quietly led from the courtroom did her sobs and cries reverberate through the halls of the Dooly building in a manner that brought a "lumpy" feeling into the throats of all who heard her. Alma was found guilty of the crime of forging the name of Clyde C. Reed on the back of a \$5 postal order and cashing the same at the postoffice in Salt Lake, March 6, 1922. The circumstances surrounding the case were somewhat peculiar and taking the same into consideration, the jury pronounced her "guilty, but with mercy to the utmost mercy of the court." The boy is to receive sentence at 4 o'clock this afternoon.

From the evidence that was forthcoming at the trial it appears that Harve and Hand were chums in the messenger service of the local office of the Western Union. They roomed together and furthermore when Harvey found a pocketbook containing \$18 they shared the spoils. Later Hand desired to return home to Kewlin and wrote his father to send him money. However he started before the money arrived and Harvey opened the latter and cashed the money order, showing the letter to the cashier by way of identification. In due season the father complained to the postoffice authorities that the money had been stolen. An investigation followed with the result that the crime was found on Harvey, who claimed that he had received a verbal authority from Hand to cash the order and keep the money. Harvey went to the postoffice after he had been found out and tendered the \$5 by way of making amends. However, the district attorney concluded to push the case, with the above result.

#### AN UNSAVORY CASE.

This afternoon Judge Marshall was engaged in hearing the case of the U. S. vs. Pierre Jeanneine, charged with sending indecent letters through the mails. In this case the defendant is accused of writing indecent letters to his sister-in-law, Mrs. Edmond of North. The case will probably reach the jury this evening.

#### ODDEN POSTOFFICE CASE.

Tomorrow morning, at 10 o'clock the case of the United States against Charles Melchior, the ex-postmaster at Ogden, who is charged with embezzlement, will be the feature. It is expected that the trial will be a long one, as quite a number of witnesses have been summoned. There is considerable interest manifested in the affair and quite a number of residents of Ogden were in Salt Lake today in order to attend the trial.

Copies of the records of all the marks and brands recorded in State Auditor Tinsley's office between June 1, 1901, and June 1, 1924, are being mailed today by that official to all the county clerks of the state, for distribution among the constables of the various counties.

## OFFICIALS MEET AND CLOSE DEAL.

Harriman Roads and Chicago, Milwaukee & St. Paul Represented.

### THROUGH TRAIN SERVICE.

Operating and Traffic Men Gather From Chicago, Omaha and San Francisco and Meet Here.

Prior to boarding the special for the east this afternoon President A. J. Harding of the Chicago, Milwaukee & St. Paul railway, announced that the traffic arrangements between his road and the Union Pacific, Southern Pacific and Oregon Short Line had been completed at today's session, and that on and after Jan. 1 the Milwaukee would operate through chair cars and Pullman sleepers from Chicago to the coast along the same lines as were in vogue between the Chicago & North-western and the Union Pacific in the past.

General Western Agent Nash also stated that the electric lighting problem for the cars would be possibly overcome by the Milwaukee installing a system of storage batteries for the present on all their cars that were coupled to Union Pacific trains that had no electric light attachments or dynamos.

Nearly all of the visiting railroad officials attached their private cars to the special and went east with President Burt this afternoon.

This morning Salt Lake was invaded by an imposing array of traffic and operating officials of the Chicago, Milwaukee & St. Paul, the Union Pacific and the Southern Pacific who gathered here in order to meet with the Oregon Short Line officials so as to arrive at an understanding regarding future traffic arrangements pursuant to the contract recently entered into between the Milwaukee and the Harriman system. The conference lasted the major portion of the day, but it is expected that the necessary details will have been arranged by tonight, when the visitors will return to their headquarters.

The representation was a heavy one and included the subjoined:

Harriman lines, J. C. Stubbs, traffic director; Southern Pacific, J. Krauschmitt, fourth vice president, assistant to the president and general manager; William Sprague, freight traffic manager; E. O. McCormick, passenger traffic manager; George F. Richardson, superintendent of transportation; Union Pacific, H. G. Burt, president and general manager; E. Buckingham, superintendent of transportation; W. R. McKee, Jr., superintendent of motive power; J. B. Barry, chief & North-western and the Union Pacific. Beyond this they did not desire to say further.

One matter that is to receive attention is the inauguration of a through fast service from Chicago to the Pacific. There is one difficulty to be overcome when it comes to the passenger business and that is the operation of through cars. The Milwaukee is one of the few roads in the west that owns its own Pullmans and operates almost exclusively electrically lighted trains. How to handle these cars on the Union Pacific and Southern Pacific is now the problem.

At the Milwaukee has the shortest route between Omaha and Chicago (62 miles) the new deal will be a good one as far as Harriman is concerned.

#### RATES ALL OFF.

General Tightening Up is Scheduled For January 1.

On and after Jan. 1 the existing rates on iron and steel goods, mining machinery, canned goods, tin cans, printing paper, publishers supplies, mineral wax, lumber articles, packinghouse products, livestock and twenty-four other and numerous other commodities, which have been shaved in the past few months, will be annulled. Every agent of the big lines in this city has received through the mail a new schedule of rates from headquarters. Accompanying the bulky document by a circular from the Transmissouri Freight Bureau, which says:

With reference to the issues of individual lines providing rates at variance with those shown herein, notice is hereby given that the rates herein provided will be applied without exception to all shipments beginning transit on and after 12 o'clock a. m. Jan. 1, 1925. Rates of individual lines which were in effect Dec. 31, 1924, and are superseded by those contained herein, will not be applied to any shipment not actually in transit and in possession of a public rail or water carrier in the United States on or before midnight Dec. 31, 1924.

#### MOFFAT ROAD.

Some Obstacles For the Contractors To Remove on New Line.

According to the surveys of the Denver, Northwestern & Pacific when the line is built it will be possible to ride from Denver to Hot Springs in three hours. By way of this trip now consumes two days. The railroad will be built through numerous tunnels, each ten feet wide and twenty-four feet high. These will require the removal of 2,275,000 cubic yards of rock. Chief Engineer Sumner in his letter to the contractors says that bids must

Cheapest because Best  
**GORHAM**  
SILVER POLISH  
Cleans as well as polishes  
No possibility of waste  
All responsible jewelers keep it 25 cents a package

be in his hands on or before noon Dec. 15, 1924.

The new road will go through the mountains and open marvelous and picturesque scenery. Pending the completion of the big tunnel the road will cross the mountains. There will also be a large amount of this work of a temporary bridge character, as later the bridges will be filled in, making a solid roadbed.

#### SAN PETE BRANCH.

Heavier Steel Now Going Down Below Gunnison on the R. G. W.

Work on the substitution of the light steel below Mantle on the Rio Grande Western for 60-pound rails is progressing apace with the result that the gangs are now working below Gunnison. It is believed that when the change has been made that the existing train service will be changed to the extent that the present train that runs as far as Mantle will continue on south, thereby eliminating the transfer to the other train at that point, which is now the feature.

#### TRACK TORN UP.

Oregon Short Line Gangs Busy Removing Old Narrow Gauge Rails.

A force of men is now at work tearing up the old narrow gauge track and putting in standard-gauge crossings on South Temple. The old equipment is being moved to the yards at Buena Vista, where it is stored. Men are also working along the same lines at different points along the Tooele branch with the result that within a few days the old narrow-gauge will have totally disappeared.

#### A NARROW ESCAPE.

Wonder that More Were Not Killed in Rio Grande Wreck.

Passengers over the D. & R. G. this morning report that the accident to train No. 1 was a very narrow escape for the entire train, and the wonder is that so few were injured. The accident occurred at the point of an embankment approached by a fill and when the engine struck the rock slide, it rolled down the bank with the tender, while the two first cars rolled down the other side. The remainder of the train stayed on the track. The train following was held up twice by rock slides east of that place, and it was necessary to send a dozen miles for powder with which to blow up the rocks in order to clear the roadway. The track was badly knocked out of shape at several points by falling boulders.

#### LODGING HOUSE BURNED.

(Special to the "News.")

Pocatello, Ida., Dec. 3.—The lodging house occupied by Mrs. Furrer, and owned by James S. Campbell, was destroyed by fire about 4 o'clock this morning.

#### LATE LOCALS.

The pingpong tournament at the Y. M. C. A. last night was won by Herman Johnson.

A new set of "Corlinton" photographs have been ordered of Savage for use of the company in New York.

Prismatic windows are to be put in at the rear of Wells Fargo's bank so as to light up the dark interior.

Today's local bank clearings amounted to \$700,255.33 as against \$753,826.33 for the corresponding day of last year.

The governor and official staff expect to return the call of the officers of Fort Douglas next Saturday afternoon.

The First Regiment band will give a ball in Christensen's hall on the 12th inst., with a full complement of 30 pieces.

Four of the show window lights in the new Keith building will cost \$1,200 each. The dimensions of these great panes are 11x15 feet each.

Rev. Isaiah G. Martin, known as the singing evangelist, begins a series of revival meetings tonight in Plymouth "congregational" church. He will continue here for 10 days.

There was no weather map this morning, owing to the wires all being down east of Chicago. But the fact that barometer was high suggested a continuance of fair weather.

This was the coldest morning of the season, the mercury reaching 15 above zero at 7 a. m. It is not usual for the thermometer to record anything under 20 in this part of the country.

Manager Moore of the Boise office of the Western Union telegraph company, will be in this city Friday, to take charge of the offices in this city, relieving Manager Twiford, who retires.

Hyde Young was elected treasurer of the Salt Lake Chapter of the American Institute of Bank Clerks last night, vice L. C. Van Vleet resigned. The next regular meeting of the chapter will be held Dec. 17.

The Utah Light and Power company has its connections in such shape now as to obviate further trouble from imperfect voltage, and does not expect further trouble unless a very severe and protracted freeze occurs.

The official measurement taken of the lake's level Dec. 1 at Gardfield showed the level to be three feet, five inches below the zero mark, the lowest level known to official records. The shrinkage in the last two weeks was two inches.

The ladies of the First Presbyterian church are busy at work today, preparing the Spencer Clawson warerooms on Main street for their bazaar which opens tomorrow. The ladies of the Westminster church are also preparing for a bazaar.

The wholesalers report an active business with retailers in Christmas novelties and holiday goods generally. The new designs in calendars now being displayed in the bookstores show marked advancement in art, particularly in the line of floral displays.

Cards of invitation are out for the lodge of sorrow services to be held by the Elks in the Salt Lake Theater Sunday evening next at 8 o'clock, at which members of the lodge will appear in full evening dress. The committee on invitations are: A. D. Tobin, W. H. Traynor, J. W. Langley, R. E. Watersman, L. G. Ransohoff.

C. H. Banks has resigned the trusteeship of the Veterans Firemen's association to go on a mission and a resignation will be given him Dec. 1 next in the Eleventh ward meetinghouse prior to his departure. James Peacock succeeds Banks as treasurer.

At a test of woven wire glass recently conducted in this city, a large pane was heated almost to the point of fusion, and cold water was then turned on it. The pane was shattered to a thousand pieces, but notwithstanding all that the wire held the fragmentary glass together.
